

# HOPE • LIVES ON

## Egg Freezing Campaign for Breast Cancer Patients

The Hong Kong Society for Reproductive Medicine has started this initiative in the hope of preserving fertility aspirations amongst breast cancer patients, so that they may follow through with their reproductive plans once they have completed their treatment and recovery.

### Let Life **Blossom** in the Future

#### Eligibility

- Patients diagnosed with stage 1, 2, or 3 non-metastatic breast cancer
- Aged 18-38
- Permanent resident of Hong Kong
- Referral from general surgeon or clinical oncologist is required to confirm suitability for participation in egg freezing

“Hope • Lives On” Egg Freezing Campaign for Breast Cancer Patients is fully supported by the following assisted reproduction centres:

- Hong Kong Assisted Reproduction Centre
- Assisted Reproductive Technology Unit (IVFHK, CUHK)
- Prolivfic A.R.T. Centre
- Reproductive Healthcare (Central)
- Reproductive Healthcare (Tsim Sha Tsui)
- Choice IVF
- Union Reproductive Medicine Centre
